

PRESS RELEASE

Downtown District Welcomes Back a Familiar Face

Belleville, Ontario, May 12, 2021 - Local tech-aficionados will remember Jim Sanders and his store, Plug 'n Playland on Front Street, which moved two years ago. Jim has returned to the Downtown District with **Dr. Jim's Computer Repair at 392 Front Street.**

Jim is moving from his current Bell Boulevard location and will be offering computer cleanups, screen replacements, hard drive service, data recovery and more.

Jim is also a Microsoft Certified Professional, so is able to help you fix all of your computer and technological issues. In store, he offers a variety of technology systems and products for purchase.

"Essentially it is a fabulous place to find one-of-a-kind items," says Jim. "You never know what you are going to find here and the curiosity will keep you coming back."

The new storefront will be open as of this Saturday, May 15, with a grand opening planned for June once lockdown is lifted.

Between moving locations, Jim has been helping older residents in the Quinte Living Centre, McNabb Towers and their homes with technology, keeping them connected and on Zoom calls with their families during COVID-19.

Follow Dr. Jim's Computer Repair on Facebook at www.facebook.com/DrJimsComputerRepair and stay tuned for his grand opening in June.
