

PRESS RELEASE

Belleville Tech Doctor Cuts the Ribbon on New Location

Belleville, Ontario, September 10, 2021 - **Dr. Jim's Computer Repair** offers computer cleanups, screen replacements, hard drive service, data recovery and more. The tech-focused business is owned by Jim Sanders, former owner of Plug 'n Playland, and was opened in May but postponed their ribbon cutting due to COVID-19. Now that restrictions are lifted, they were finally able to celebrate their grand opening at **392 Front Street** in the Downtown District.

On Friday, September 10, Jim was joined by David Joyce from MPP Smith's office, Councillor Thompson, Councillor Sandison, Councillor Carr and Jenna Leslie from the City of Belleville, Anna Fraiberg and Jill Raycroft from the Belleville Chamber of Commerce and Tiffany Spencer from the Downtown District BIA for an official ribbon cutting and grand opening ceremony.

Jim is also a Microsoft Certified Professional, so is able to help you fix all of your computer and technological issues. In store, he offers a variety of technology systems and products for purchase. Aside from technology, he also has a wall full of local artwork and a coffee bar for purchasing.

"Essentially it is a fabulous place to find one-of-a-kind items," says Jim. "You never know what you are going to find here and the curiosity will keep you coming back."

Jim has philanthropic endeavours with his business as well, helping older residents in the Quinte Living Centre, McNabb Towers and their homes with technology. All sales from the coffee bar from September 10-27 will be donated to the Gaetane Harvey Memorial Walk, which benefits the Belleville General Hospital Foundation's Cancer Care Campaign.

Follow Dr. Jim's Computer Repair on Facebook at facebook.com/DrJimsComputerRepair.
